PROFESSIONAL SUMMARY

Product Designer and UX Specialist driven by curiosity, human empathy, and a passion for solving real user problems. With a foundation in graphic design and hands-on experience across tech, nonprofit, and educational spaces, I focus on creating thoughtful, intuitive digital experiences that genuinely help people. I bring a balance of strategic user research, clear communication, and modern design tools to craft accessible products that align human needs with business goals.

EXPERIENCE

Graphic Designer | Mentor A Promise (MAP)

July 2026 – Present

Remote

- Lead visual design strategy and Interaction Design (IXD) across digital platforms to scale brand engagement and support youth-mentorship initiatives.
- Drive Cross-Functional Collaboration with program leads, product managers, and communications teams to transform organizational goals into high-converting digital campaign assets.
- Build and maintain scalable Design Systems — spanning component libraries, typography, and color tokens in Figma — ensuring visual consistency across all product touchpoints.

Student Designer | Wix Studio

May 2025 – September 2025

Remote

- Partnered directly with client stakeholders in an Agile / Scrum environment to overhaul navigation clarity and optimize core web flows, boosting student engagement.
- Conducted User Research and Usability Testing sessions to develop User Journey Mapping and User Flows, translating qualitative feedback into iterative product updates.
- Restructured Information Architecture (IA) and executed low-to-high fidelity Wireframing & Prototyping in Wix Studio and Figma for seamless developer handoff.

Associate | Amazon

May 2022 – April 2026

Murrieta, CA

- Analyzed fulfillment operational workflows using systems-thinking principles, implementing process improvements that reduced errors by 15%.
- Fostered Cross-Functional Collaboration across fulfillment teams to optimize personal and operational efficiency in high-volume environments.

Educational Aid | TVUSD/RBUSD

May 2018 – October 2022

Temecula, CA

- Supported classroom teachers with lesson delivery, classroom management, and student supervision, while developing and adapting learning materials to meet individual student needs.
- Facilitated small-group activities that reinforced learning objectives and increased student engagement.

EDUCATION

Bachelor of Arts, Graphic Design — UX/UI Design Concentration

Southern New Hampshire University | GPA: 3.89

Associate of Science, Mathematics

Mount San Jacinto College

CERTIFICATIONS

- Google UX Design Professional Certificate
- Google AI Professional Certificate
